605.486 – Android Development

Module 1
Development Environment

Tools

- Java
- Android SDK
- Eclipse
- Android Development Tools
- Subversion or git

- Note: 32-bit/64-bit versions of Java and Eclipse must match

Installing Tools

- (Other than Java) DO NOT update the tools during the course
- Keep a copy of the installation distributions in case you need to reinstall
- (Other than Java) Use separate copies of the tools for the course

Java

- We will use the version of Java specified in the syllabus
- You may upgrade this during the term (as long as it's the same Java top-level version)
- http://www.oracle.com/technetwork/java

Android SDK

- "Android Software Development Kit"
- We will use version of the SDK specified in the syllabus
- ***http://developer.android.com/sdk***
  - Click "Download for other platforms"
  - Choose "SDK Tools only"
  - Choose "zip" or "tgz"

DO NOT UPGRADE THE SDK DURING THE TERM UNLESS DIRECTED TO!!!

Eclipse

- Integrated Development Environment (IDE)
- http://eclipse.org
- We will use version of Eclipse specified in the syllabus

- If you already have an Eclipse installation
  - Create a separate installation for this course
  - ***Only*** perform course work in this installation
  - ***Do not*** install other plugin

<u>DO NOT UPGRADE ECLIPSE DURING THE TERM UNLESS DIRECTED TO!!!</u>

ADT

- “Android Development Tools”
- Eclipse Plugin
- Help->Eclipse Marketplace
- Search for “Android”
- Install “Android Development Tools for Eclipse”

DO NOT UPGRADE THE ADT DURING THE TERM UNLESS DIRECTED TO!!!

Android Platform Target

- All projects must use the target and minimum Android API levels specified in the syllabus

Version Control

- Highly recommend version control!!!

- Subversion Example

Note: If you use a public website to store your code, it MUST be private and cannot be shared with anyone , in the class or not.

Academic Integrity

- All work in this class must be your own
- Referenced work must be attributed
- You can discuss lectures and assignment descriptions
- You cannot work together on programming assignments.

Let me repeat that: you cannot work together on programming assignments.

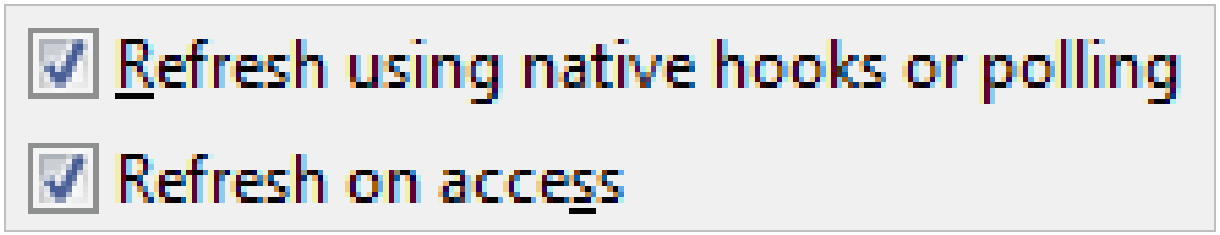
- Students violating JHU Academic Integrity policies receive a zero on the assignment and the matter will be referred to the dean.
  - Copying without attribution/permission
  - Working together on assignments
  - Otherwise misrepresenting your work

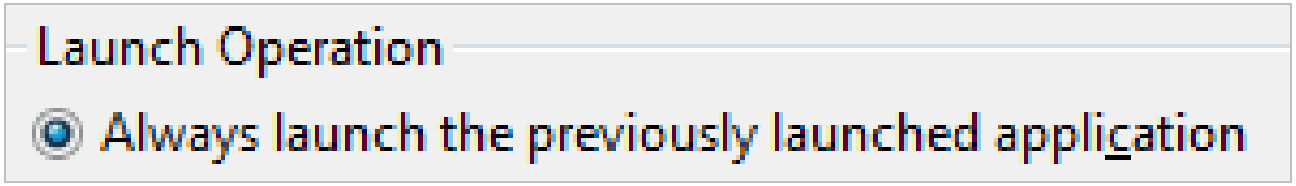
Open Source & Example Code

- ***Small*** sections of code may be copied if
  - you attribute it
  - *code licensed stating it's ok to copy*
- Comment the copied section stating its source and license
- Course examples
  - Attribute it
  - Any code I do not explicitly mark is licensed for your use *only* in this class and for not other purpose. You may not post or distribute any of my code for anyone else's use or for any purpose other than your work for this class.

Useful Eclipse Settings

- General->Workspace



- Run/Debug->Console


- Run/Debug->Launching
