605.486 – Android Development

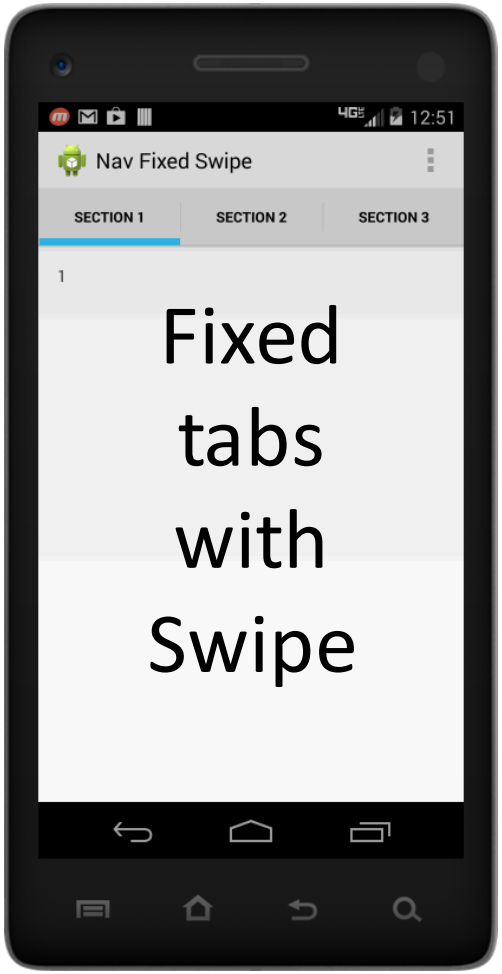
Module 21
Navigation

ActionBar Navigation

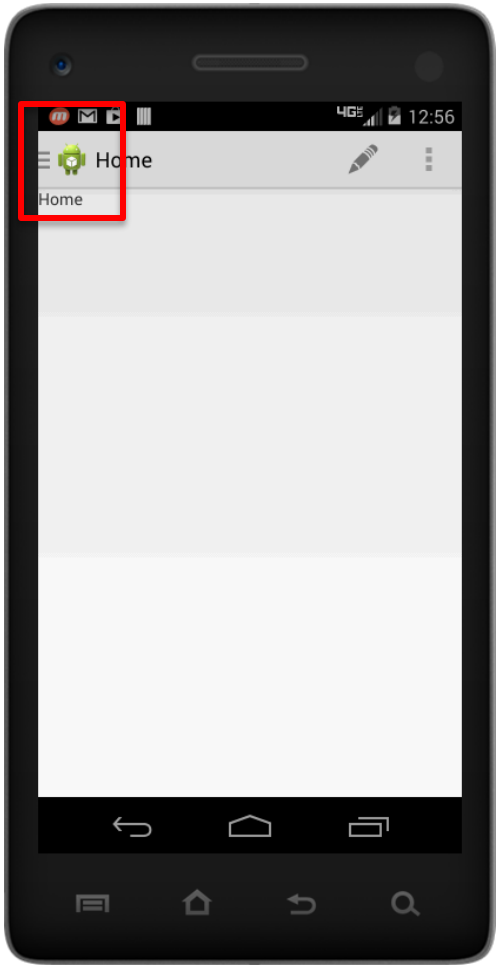
- Really Good Docs from Google (happens sometimes…)
  - http://developer.android.com/design/patterns/app-structure.html
  - http://developer.android.com/design/patterns/navigation.html
  - http://developer.android.com/design/patterns/swipe-views.html
  - http://developer.android.com/design/patterns/navigation-drawer.html

- Top / Up / Back / Swipe / Drawer

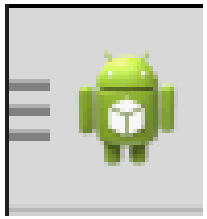
ActionBar Tab Navigation

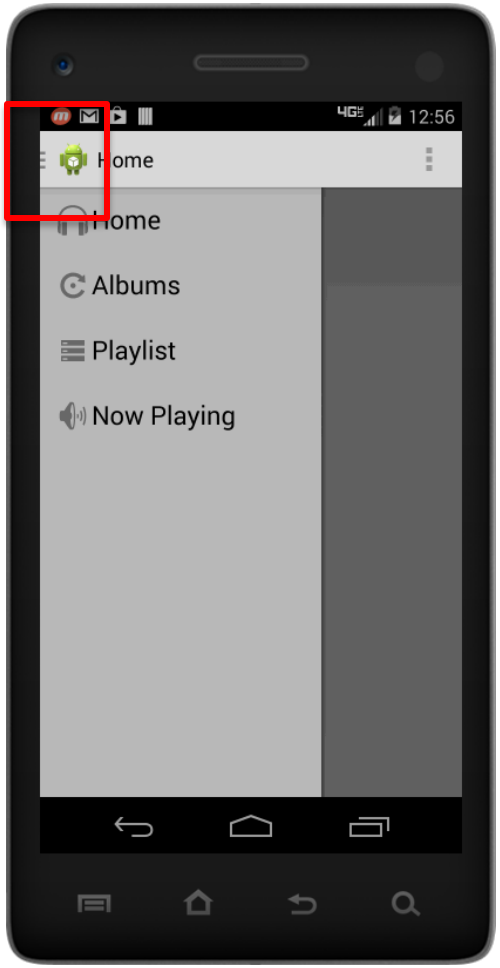


Navigation Drawer

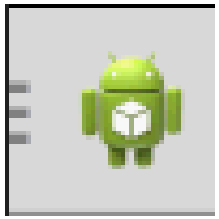


Nav drawer Closed, wider Icon



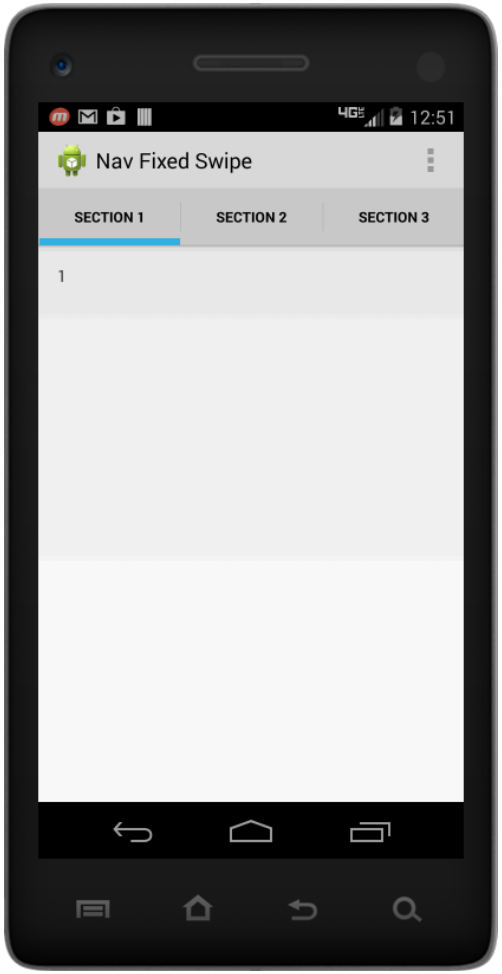


Nav drawer open, narrower Icon



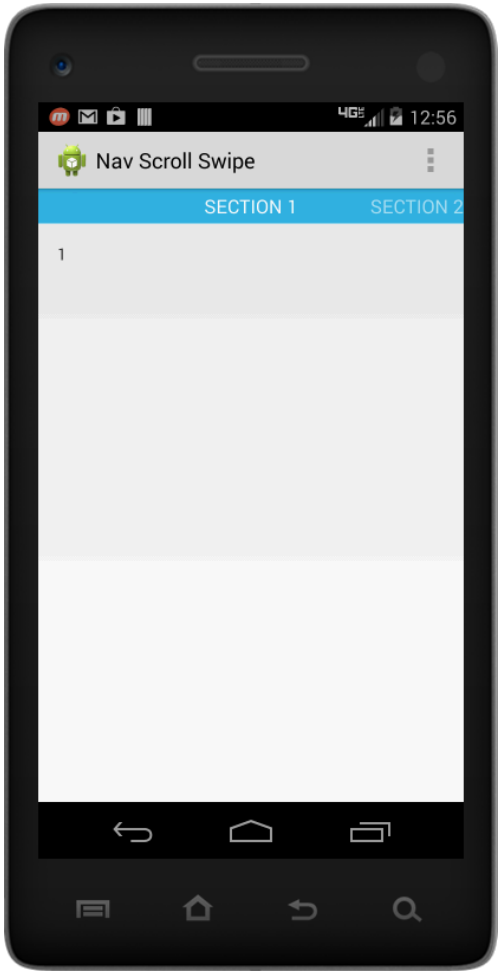
Example 1 – Fixed Tabs w/ Swipe

- Use Wizard to create
- Note: Does not use ActionBar compat!
  - You can tweak it



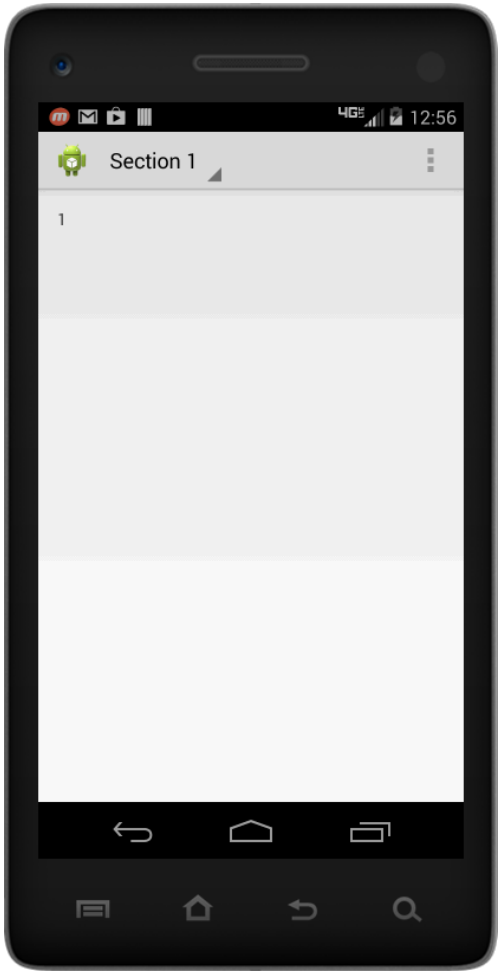
Example 2 – Scrolling Tabs w/ Swipe

- Use Wizard to create
- Note: Does not use ActionBar compat!
  - You can tweak it



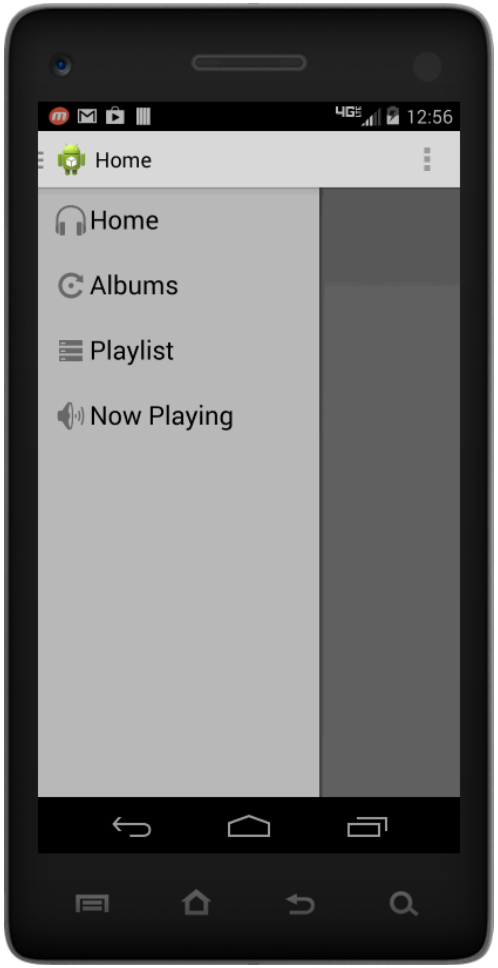
Example 3 – Dropdown Tabs

- Use Wizard to create
- Note: Does not use ActionBar compat!
  - You can tweak it



Example 4 – Navigation Drawer

- No wizard. Weep.
- Not difficult, though…



Tips

- Three or less siblings
  - Use swiping tabs
- Four or more
  - Drop down (kinda gross, doncha think?)
  - Navigation drawer
- Shallow nav hierarchy
  - “Up” or “Home”/”Top” icon
- Possibly deep nav, lots of top-levels
  - Navigation drawer
