605.486 – Android Development

Module 25
AndEngine

AndEngine

- Game engine for Android
- Many other engines exist
  - Some are cross-platform
- Many extensions
  - We'll use a Physics Extension

AndEngine Concepts

- Scene Graphs
- Sprites
- Animation
- Resource Management

Towers of Hanoi Example

- Original Tutorial
  - http://www.raywenderlich.com/12065/how-to-create-a-simple-android-game
  - Beware… some *really* bad programming here…
    - I've re-written the code significantly
- Art

Disgruntled Jetpack-Goldfish

- I found Goldfish graphics before disgruntled avians…
  - I should have looked for bovines…

- Art
